IFTC 2022: 31 May/1 June 2022, Utrecht, the Netherlands

The 2nd International Feed Technology Congress (IFTC 2022), organized by Wageningen University and the VICTAM Foundation will be held from **31 May/1 June 2022** during the VICTAM International 2022 in Utrecht, The Netherlands.

After the successful 1st edition, brought together 120 researchers from 26 different countries of all continents in Cologne, Germany, the 2nd edition again will focus on bringing together researchers from universities, research institutions and industry to discuss the latest developments in feed technology. During the 1st IFTC, valorization of raw materials by technology, current process developments and outcomes of feed technology with respect to feed formulation were major topics. A special Workshop was organized to discuss current and future issues of importance in feed manufacturing technology. Contributions and the results of the Workshop were recently published as a special issue of the 'Animal Feed Science & Technology' journal. The successful format of the 1st IFTC will guarantee high quality presentations by world-renowned experts, open discussions, and publication of the latest scientific and practical developments in feed technology during the 2nd IFTC.

The 2nd IFT Congress will be held in Utrecht, the Netherlands during the VICTAM International Exhibition in 2022. Please **save the date** of the Conference (31 May/1 June 2022) and share this message with your contacts or any person who might be interested in presenting their paper. The topics of the conference and speakers will be published soon. Further announcements on the submission organization will come by August/September 2021.
